SASQUATCH EXPEDITION CAMPERS // THE HIGHLAND 60 (starting at \$43,500)

Every year, we include some big-ticket items in the annual gift guide. This year is no exception and a great excuse to highlight Sasquatch Expedition Campers. Made in Silverton, these campers are built to be rugged and allow you to adventure farther into the remote wilderness than a traditional camper. A little too large to fit under the Christmas tree, but a girl can always dream, right?

WILD MONKEY BAR

THE CANDY BAR REIMAGINED.

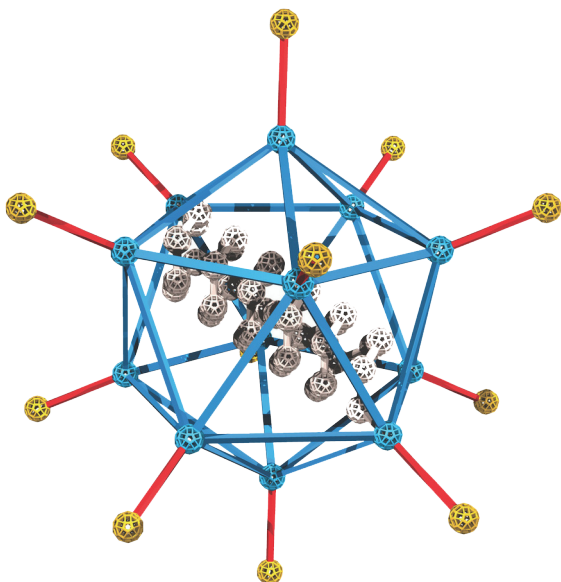

WILD MONKEY BAR (\$5)

A true Colorado story, the Wild Monkey Bar was inspired by a trip to Rocky Mountain National Park when John and Brooke were reflecting on the importance of finding balance. From those expansive vistas and philosophical ponderings, this beautiful morsel was born. Packed full of wholesome, but also delicious ingredients, the Wild Monkey Bar is the culinary manifestation of balance.

ATREVIDA BEER COMPANY

According to the website, Atrevida means bold, daring, audacious woman and the name was chosen in honor of Jess Fierro who is the first Latina brewery owner and head brewer in the state of Colorado. Many Coloradans may have been unfamiliar with Atrevida until recently, but thanks to the bravery shown by Jess's husband, 15-year Army veteran Rich Fierro who saved countless lives in the recent Colorado Springs tragedy, the whole world knows Atrevida now. Between their flavor-forward beers and their fierce merch that matches the intensity of their commitment to diversity and justice, it's no wonder people are flocking to their website to support this small business. Supporting a good cause and enjoying a good beer is a no-brainer. As one Twitter user asked, "Wouldn't it be a shame if we bought every single thing they had in their entire inventory?". I know where I'm headed next time I'm in the Springs. I'll see you there!

ZOMETOOL // THE (NAKED) STEAM KIT (\$310)

After decades of researching, dreaming, and scouring the globe for a manufacturer brave enough to attempt what many deemed impossible, Zometool is now used by children, teachers, and scientists all over the world—and out of this world! No kidding. NASA is using it as a tool to study the AIDS virus in space. Cool, right? It's also beautiful, fun to play with, and is designed to spark the imaginations of future visionaries.

AKSELS // COLORADO FLAG BEANIE (\$24.99)

Denver-based Aksels crafts some of the hippest, highest quality apparel around, specializing in hats, socks, and other accessories. So don't wait—grab some Aksels gear for the cool kids in your life (or yourself, cool kid).

MARUCA DESIGN // PRAIRIE BAG (\$160)

Maruca Design was founded in 1994 by Rex Maruca who was selling fabric for the upholstery industry and decided to experiment with making women's handbags using the same beautiful jacquard fabrics. In 2020, Rex sold the company and retired. Maruca is now woman owned, woman run, and remains a small studio where every bag is hand cut and sewn and never mass produced. So grab a bag for yourself or that special someone!

SPARK GRILL // CHEF'S PACKAGE (\$1,399)

Based in Boulder, Spark Grills has revolutionized the art of charcoal grilling. These high-performance, high-precision grilling machines use a clean, compostable charcoal Briq instead of traditional charcoal to give you that smoky grill flavor without the messy clean-up. BALLMER PEAK DISTILLERY // OUTBACK ASPEN GIN

Lifelong friends, Eric and Austin, travel the world studying the art of distilling and have ingeniously incorporated those techniques and flavors into their spirits. In the style of a peppery Australian gin, with local flair in the form of charred Aspen cuttings soaked in Locke + Co rye, the Outback Aspen Gin is the best of both worlds. Is it 5 o'clock yet??
